ALL EUROPE DEFIED.

The Sultan of Turkey Answers the Powers.

ACQUITS

FOUL MURDERERS.

He Sets Ocular Testimony of the Ambassadors at Naught and Plays on Their Jealousy-He Still Believes the Powers Will Not Unite to Dethrone Him-Further Massacres Threaten.

CONSTANTINOPLE, Sept. 14.—There is no doubt that a crisis has been reached and that the powers are discussing the deposition of the sultan as apparently the only means of restoring quiet and confidence within the Turkish empire. A British fleet of about 15 warships is at anchor off Kavala on the island of Thasos and within easy striking distance should an emergency arise, and it is believed Great Britain will not hesitate to act alone in the matter of putting an end to the present disgraceful state of affairs if the other powers delay too long.

As expected, the extraordinary tribunal, trying the men accused of massacreing Armenians in the streets of this city and its suburbs, has turned out to be nothing more than a white-washing court. The men who were arrested for brutally killing two Armenians before the guard house of the British embassy and in full view of several British officials have been acquitted. The Europeans feel that this shows that the peaceable residents of Constantinople are absolutely without any guarantee for protection. Business is at a stand-

Many more officers have been arrested for claiming their pay, and for resigning their commissions when informed that there was no money for them. The common soldiery are feeling still more irritated. But, there is plenty of money and provisions for the strong body guard of the sultan, and for the troops which constantly sur-round the palace, and it is believed that this display of force alone saves the sultan from witnessing a demonstra-tion which would surely open his eyes to the disgraceful state of affairs exist-

The full text of the note which the representatives of the powers sent to the sultan on Aug. 31, has only just been communicated to the press. It says that the remonstrance is based on positive data. It adds that the savage bands which murderously attacked the Armenians and pillaged their houses were not ment was made in the family vault. accidental gatherings of fanatical peo-ple. That there is every indication of their special organization, and they were known to, if not directed by, the authorities. The note of the powers then, under seven specific clauses, gives evidence in support of this, and concludes with a demand that the instigators and principal actors in the tragedies be punished with the utmost rigor.

men who murdered two Armenians in day at West Hampton. front of the guard house of the British embassy is all the more significant, and demands further action upon the part rector of the church, who was assisted

of the powers.

The Turkish government Friday answered the note of the powers in a long communication. The ministry, in trying to refute the charges made, practically denied the ocular testimony of Billy Burch, Judge and Mrs. C. P. is regarded as tantamount to a defiance

As usual, the porte is relying upon the jealousies existing among the six powers to save the sultan once more, and as Abdul Hamed has so frequently escaped punishment during the course of his long and troubled reign, it has grounds for believing that even now Europe will not put an end to the disgraceful conditions prevailing in the Turkish empire.

News from Armenia shows that a very serious condition prevails there, and that further massacres are anticipated. It is true that the sultan has caused all the governors to be notified that they will be held responsible if outbreaks involving the destruction of property and the loss of life occur. But such warnings have frequently been issued in the past and they seem to have served more to create disorder than to suppress it, as would seem to be the case in the present instance, for, while warning the governors, as already stated, the soldiers have been notified that they are authorized to use their arms in self-defense if they are attacked.

Thus the Armenians and others look upon these orders of the Turkish government as little less than a notification to the provincial authorities that they are to take the most vigorous measures in suppressing the Armenians if the latter take any part in any demonstrations, and those who know the Turks are well aware that the latter can provoke such demonstrations at the short-

est possible notice. The representatives of the powers met again Saturday and discussed the situation, but it is not known that they came to any decision, although communications with their respective governments are being constantly ex-

changed. The inaction of the embassies continues to be sharply criticised here, and radical measures are demanded in order to prevent a renewal of the disorders. Unless such steps are taken it is believed that it will not be long before there is another outbreak here, in spite of the fact that the streets of the sultan's capital are hardly dry with the blood of the thousands of unfortunate people who were victims of the massacre of two weeks ago.

It becomes a grave question whether he is not insane like his brother Murad, the deposed sultan, in which case the Sh. ik-Ul-Islam has the power to depose him.'

An Ohio Man Loses Forty Dollars and Makes a Complaint.

NEWBURG, N. Y., Sept. 14.-Mrs. Anna Grossner, a Swedish woman of 30, who has a husband and six children, was arrested in this city Saturday night on a warant charging her with using the United States mails unlawfully. The warrant was obtained by Postoffice InspectorMc Dureyea on complaint of William A. Silcott of Mount Vernon,

O. Mrs. Grossner is alleged to have advertised in a matrimonial paper that her husband had died and left her a fortune, but that the estate was not settled up. She wanted the assistance of a wealthy gentleman, and stated that she would go to his home for an interview if money to pay her fare was sent

It is alleged that she obtained \$40 from Silcott in this manner. Mrs. Grossner's husband left here Saturday morning for Toronto and the family were to follow. Mrs. Grossner and her baby are in jail and the other five children are at the children's home. The woman will be given an examination by Recorder Hyndmann.

An English Detective Runs Him Down at Boulogne, Italy - He Acknowledged His Identity and Will Be Taken to England as Soon as Extradition Papers Can Be

BOULOGNE, Sept. 14.-Tynan, the notorious "Number one," has been arrested here on a Scotland Yard warrant, which was issued in 1882. Tynan arrived in Europe by landing in Genoa in August. He proceeded from there to Paris, where he remained for some days consorting with a number of the members of the dynamite faction of the Irish party. He had been traveling under the name of George Gordon and other aliases, when he arrived in Boulogne on Friday evening and put up at the Hotel Folkestone, where he did not hesitate to expound his Fenian views in the bar of the hotel.

His movements had been watched from the time he had arrived in French territory. The local commissary of police, together with an English detective, burst into his room at 4 o'clock in the morning. The detective held a loaded revolver to his head and threatened to shoot him if he resisted. Tynan was secured and admitted his identity. Incriminating papers and a large sum of money were found in his possession. The prisoner was lodged in a cell in

the Boulogne police station and he will be arraigned with a view to his extradition to England.

The warrants on which the arrest is made charges that the prisoner was concerned in the murder of Lord Frederick Cavendish, chief secretary, and Mr. Burke, under secretary, in Phœnix park, adjoining the Vice Regal lodge in Dublin, on May 6, 1882, and with the manufacture of dynamite bombs for use

Detective Inspector Walsh has arrived here from Scotland Yard to conduct the case. He said that there would be some connection between Tynan's arrest and the arrest of a man named Bell Saturday at Glasgow and of J. Wallace at Rotterdam.

FURTHER PARTICULARS.

Tynan Had but Recently Been in the United States.

London, Sept. 14.—The Bell mentioned in a dispatch from Boulogne to the Associated Press as having been arrested on Saturday at Glasgow in connection with Tynan's arrest in Boulogne, is charged with being concerned in a dynamite outrage. Bell's age is about 30. His first name is Edward. He arrived from the United States early in the week. He is believed to be an American.

A dispatch from Boulogne to The Times says: "Tynan was in company with Bell in Paris and it was expected that both would cross to England, but Tynan appears to have hesitated to venture on such a perilous trip. Bell went to England a few days ago.

"Tynan had not suspected that his identity was known and he was astounded at the entry of the detective, commissary and four officers. Tynan had shaved his beard. He seems to be depressed over his capture."

Preparing For Further Operations. LONDON, Sept. 14.—The Standard has an editorial based on a dispatch from its correspondent at Boulogne in which it expresses the belief that Tynan, when arrested was preparing for further dynamite operations in England.

SEARCH GIVEN UP. The Revolver That Killed Bessie Little Still Undiscovered.

DAYTON, O., Sept. 14.—After two days of patient search in the bottom of the Stillwater river, Diver Ben Graham's efforts to recover the missing revolver with which Bessie Little was shot have been unsuccessful. Frantz, in leading the police to believe that the revolver went over the bridge into the water at the same point the girl's body did, was either purposely misleading them or was too much excited at the time to recollect definitely what he did

A diver named Pate, from Toledo, has also been at work, yet the work of the two men and that of the magnets have failed to recover the weapon.

The vault at the Frantz residence was emptied and searched by scavengers, but no trace of the revolver was found

It is said that Frantz was engaged to a young lady who is eminently respectable, and that they were to have been married shortly. The young lady is prostrated by the predicament Frantz is now in. His contemplated marriage may have been a motive for getting rid of Miss Little. Chief Farrell says that he can convict the prisoner upon the evidence he now has.

Frantz is visited frequently by members of his family, his sister being particularly devoted to him, making numerous calls and inquiries as to his comfort. He remains in the same mood. devoting much of his time to the study of a Testament brought to him immediately after his confinement

Mr. Clarke thinking that he had better arm himself went to his house for his shotgun, and when he returned the quarrel was renewed, Roland holding his ax in a threatening manner. They started toward each other and Clarke opened fire on the negro, firing three times and wounding him in the arm and body, but not dangerously. The population of the place is about 200, the majority of whom are negroes. They became greatly incensed at the shooting and threatened to burn the buildings of the whites.

The negroes gathered in large numbers in the town with shotguns and pistols, and the whites, fearing they would carry out their threats, tele-graphed to the judge and sheriff of the county to send assistance at once. A special train was dispatched with 12 reliable men, accompanied by the sheriff and his deputies. When the train arrived at Blythe, the colored people dispersed at once. The sheriff and his men are now hunting the ringleaders, but it is hardly probable they will be success-

ful as they are hiding.

Clarke has been put under arrest and will be taken to Augusta for preliminary

The women and children are very much frightened but it is believed that since the arrival of the sheriff and posse that the negroes are too scared to attempt to carry out their threats after the officers leave.

GIGANTIC ROBBERY.

Two Sets of Books Found in Union National Bank at New Orleans.

NEW ORLEANS, Sept. 14.-Louis Colomb, one of the two individual bookkeepers of the Union National bank who were charged with embezzling over half a million in cash took a dose of morphine and died a few hours afterward

The investigation into the affairs of the bank promises to reveal one of the most gigantic steals of the age. The thefts have evidently been carred on for several years, and the scheme was very adroitly worked so as to prevent discovery by the bank officials. In order to carry it out there had to be two sets of books kept, and there was collusion inside and outside the bank.

If theories are correct, the bookkeeper would make fictitious records of sums deposited to the credit of some outsider. When that outsider desired money he would present his check, and when his chech was referred to the bookkeepers by bank officials with a request for information as to whether there was The Fishing Schooner Silver Dart Lost, money on hand to cover it, the reply would be in the affirmative. A second cover up the crime. The defalcation

will reach nearly \$600,000. It is said that both Leefe and Colomb ary of \$1,800 per annum, lived in a handsome house on Seventh street,

which was magnificently furnished. It is thought the outside confederates of the crooked bookkeepers got the bulk of the stealings and the federal authorities are now engaged trying to find who these parties are.

TO DRAIN KANKAKEE VALLEY. Committee Appointed to Engage Engineers and Get Work Started.

VALPARAISO, Ind., Sept. 14 .- About 400 landowners and farmers met at Hanna Saturday to discuss the longvexed question of draining the Kankakee valley. A board of directors was elected consisting of James Gilchrist, Knox; Charles Holmes, Walkerton; James Long, Lacrosse; A. E. Stowell, Wilders; Edgar Achilling, Walkerton; Charles Donaldson, Hamlet; D. W. Place, South Bend.

This committee is expected to engage a civil engineer to make surveys and to commence this long-deferred work. The owners or agents of this land were well represented from other states. A large portion of this land is covered with water a considerable part of the year, and on account of the slight fall of the river it seems almost impossible to effect any good results. The plan adopted will cost the seven counties in northwest Indiana over \$1,000,000.

HISTORIES NOT REVISED.

Indiana School Trustees Call in Objectionable Books.

Indianapolis, Sept. 14. — Saturday afternoon the state board of education held a meeting and caught up short the school book firm of Ginn & Company. The board made a contract with this firm to furnish the schools of the state with histories, the firm agreeing to make a large number of changes demanded by the Grand Army.

The school trustees discovered that the publishers had left out a good deal of the agreed matter in their revision. Thomas T. Ballard of Chicago, the firm's representative, promised that the books should be revised and those already sent out called in. The board advised all school officers that they must not receive the histories until advised by the board.

Eighteen Men and Four Women Killed Outright and Thirteen Others, Including Three Children, Were Wounded General Weyler Having Leading Citizens of Havana Arrested by Wholesale.

KEY WEST, Sept. 14.-Advices from Havana by the steamer Mascott give details of a massacre of Cubans in Matanzas province by Spaniards under General Molinas. The butchery occurred on Cana's sugar estate. Molinas heard an insurgent band was

camped on the estate and ordered a raid. The insurgents had gone when the Spaniards arrived, and Molinas ordered the buildings on the estate destroyed. The Spaniards surrounded the homes of the employes, applied the torch and shot the Cubans as they rushed out. Eighteen men and four women were killed outright, while 13 others, including three children were wounded. Molinas was a pleased spec-

Thursday insurgents raided and burned the town of San Francisco de Paula, a suburb of Havana. The Spanish garrison of 300 men surrendered, but were released after being disarmed. The smoke and flames were visible in Havana and caused great excitement.

Weyler seems to have completely lost his head. He is having leading citizens of Havana arrested by wholesale. Weyler says the men arrested have been plotting to have him recalled to Spain. The arrests have profoundly stirred

WAR VESSELS ON THE LAKES. Eugland May Object to the New Revenue

Cutter Just Launched. CLEVELAND, Sept. 14.—It is probable that diplomatic complications will arise between the United States and Great Britain over the maintenance in the great lakes of the revenue cutter Walter Q. Gresham, which was launched here Saturday. Miss Ruth Hanna, daughter of Mr. Hanna, christened the boat.

British naval experts hold, after a careful examination of the plans of the Gresham, that her maintenance on the lakes would be a violation of the treaty entered into by the United States and Great Britain, whereby only one war vessel can be maintained on the lakes by each government.

It is known that the naval attaches of the British embassy at Washington have made a complete report to their government upon the vessel, in which they have classed it as a gunboat.

Should complaint be made the state department will respond by saying that the Gresham and the other two similar cutters which are to be built for service on the lakes are simply for revenue marine service, and for nothing else. The state department will also call the attention of the British government to the fact that England was first to adopt this novelty in the construction of revenue cutters, which were built two years ago for the Canadian revenue marine, carry heavy steel rams.

GENERAL J. B. WEAVER says Iowa will go for Bryan by 30,000 majority.

NATIONAL COMMITTEEMAN GAHAN, OF Illinois, holds \$27,000 to bet on Illinois going for Bryan. He can get no takers. Of course the silver craze is dying out.

THE laborers are with Bryan. Workingmen of New York responding to a call issued by District Assembly No. 49, Knights of Labor, met in Cooper Union Saturday night, and passed resolutions denouncing Powderly as a Judas and a traitor to the cause of labor, for his speech the other night. The resolutions also attacked M. A. Hanna and praised William J. Bryan.

HOW'S THIS, GEN. BUCKNER?

General Buckner, the Boltocrat nominee for Vice President, has a free silver record that stands out as clear as that of his running mate, General Palmer. In 1887 General Buckner was a candidate for Governor of Kentucky on the Democratic ticket and a big Democratic raily was given in his honor at Lexington, on June 15 of that year. He made a speech to the big crowd present, and in referring to the currency policy of the Republican party said:

It violated its duty to the people by abrogating the contract of the bondhold ers to receive their pay in the currency of the country, and gave them gold; and it then demonetized silver in order to make gold more valuable, and further enrich the capitalist at the expense of the people.'

If these words were true then (and history shows they were) they are just as true now, and the Governor stultifies himself every time he utters anything to the contrary.

WHEN Senator Palmer was shown the message this afternoon he remarked: imagine some of the federal officeholders take Hood's Sarsaparilla. Soon appetite will give heed to this."-Commercial-

The message referred to was the one from President Cleveland read at the Palmer-Buckner notification meeting at Louisville Saturday night. Evidently Senator Palmer is resting under the impression that the President is Grand Chief Boss of the Federal officeholders throughout the country, and that they 1st, 1898, for \$1.50, cash. Mr. J. L. Frederick, of Butler, Penn., a traveling man, remarked to a Cincinnati Enquirer man Thursday:

"If the silver tide is not stayed soon it will overwhelm the Keystone State. I have always been a Republican, but shall vote for Bryan. The laboring men are all worked up and going over to Bryan in masses. In the counties of Mercer, Crawford and Erie, where the vote formerly stood 5 to 1 Republican, it is now 2 to 1 for Bryan and free silver.

"I saw a prominent business man in Butler bet \$50 that McKinley's majority in the State will not be over 25,000, and when some of the Republicans present jollied him he bet one of them \$100 that he wins his first bet.

Prominent Men of Louisville Organize an Independent Silver Club.

Irrespective of Party, They Are Fighting the Goldites-Many Members Being Enrolled.

[Louisville Post, gold organ.]

A non-partisan silver club is being organized, to which all those who have really studied the question are invited to enroll their names. The following resolutions are being signed by people of all classes throughout the city, and a few of the names of the many who have joined this club are given below:

We, the undersigned, hereby become members of the Non-Partisan Free Silver Club, and we affirm that after studying the matter thoroughly, we believe the following statement of principles to be true:

First-That the world having been on a bimetallic basis from the dawn of history until very who seek to bring it to the single gold standard. Second-That the single gold standard, by reducing silver to a subsidiary coin, has about doubled the demand for gold, thereby making gold more sought after, and hence more valuable, and as a necessary consequence has vastly decreased the value of all other commodities as measured in gold.

Third-We believe that the bimetallic basis is vastly better for all classes of people, except the idle holders of idle capital.'

Fourth-We believe that all the benefits of bimetallism will be reached if one-half of the world uses gold only and the other half of the world uses silver only. This is, in fact, the only bimetallism the world has ever known, to any

Fifth-We believe that the United States is so important in population, wealth and consump tive power that transferring her from the gold column to the silver column will bring the Mayslick Christian Church, beginning value of silver almost, if not entirely, to a parity with that of gold.

Sixth-We believe that this change would be so vastly beneficial to the people of this country, and to all mankind, that it is the duty of every patriotic citizen to study the question theroughly and impartially, and we believe that when they have done so, they will join us in promoting the cause of bimetallism.

Seventh-We deny that there has been any overproduction of silver, and believe that the depreciation in the value of silver has been e: tirely due to the hostile legislation.

Eighth-We believe that bimetallism by international agreement is impossible, and every day becoming more so, for the reason that the creditor nations, and those nations who are entirely controlled by the creditor classes, will never agree to it.

Ninth-We favor the free and unlimited coinage of silver into legal tender money at a ratio of 16 to 1 by the United States alone, without wait ing for the consent of any other country.

Saturday's Game at Knoxville in Eleventh Inning-Two Games Here Tomorrow.

[Special to BULLETIN.]

KNOXVILLE, TENN., September 12, 1896 .-To-day's game was close and exciting. Eleven innings were required to settle it, Maysville winning by a score of 10 to 9.

Hits, Maysville 14, Knoxville 9. Newton and Schmidt were the opposing pitchers, Maysville's crack southpaw carrying off the honors.

The Maysvilles will arrive home in time to play two games Tuesday.

Four out of six from the Knoxvilles in one week is a record to be proud of. The Maysvilles are playing ball now.

Arrangements have been made for two games at the local park to-morrow. The Chester Parks, one of Cincinnati's best clubs, will be the opposing team. The first game will be called at 10 a. m. and the second at 2:30 p. m.

BURGLARS AT ABERDEEN. TITLE TO

They Made a Successful Raid at the Mineral Well Hotel Saturday Night-Other Houses Visited.

The Mineral Well Hotel at Aberdeen, Mr. Cal Kennedy proprietor, was visited by burglars Saturday night. Entrance was effected through the kitchen, and the lock to Mr. and Mrs. Kennedy's sleeping apartment on first floor was then picked. The thief or thieves took Mr. Kennedy's clothes and carrying them out on the rear porch went through the

Mr. P. N. Bradford's residence was also visited by the thieves. They got into the kitchen, but were either unable to open the doors to the other rooms or else were scared off. They carried the kitchen lamp to the corner of Main street and left it on a box.

Later Mr. Harrison King's residence was visited, probably by the same gang. Mrs. King happened to be awake, and aroused her husband who got his pistol and fired twice at the thieves.

Parties on a "family boat" moored at the upper end of the town were suspected and were searched yesterday. Cash amounting to \$197 was found on one of the men, but Mr. Kenndy was unable to identify any of it.

Mr. and Mrs. Kennedy both think they were chloroformed by the thieves, as they were very drowsy all day Sunday.

It has been held that consumption is hereditary, and the fact that one person of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop. Keep the lungs full of rich, red, wholesome blood, and the weakness will disap pear. Decaying tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent. of all cases of consumption where it is taken according to directions. It searches out disease germs wherever they may be in the body and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes

CINCINNATI TOBACCO MARKET.

Offerings Last Week Not Very Large-No

'97 Crop. The Cincinnati Leaf Tobacco Ware-

Improvement in Prices-The

house Company, in its circular for the week, has the following: During the past week the offerings of tobacco

on our breaks have not been very large, only one day, Wednesday, reporting full houses, and, as the receipts continue liberal, stocks are still increasing. It is evident, however, that the receipts must soon fall off. Still, with the tendency of holders to wait until after the election before unloading, it looks as if large stocks would be carried into the next year, and although we may look for an enhanced demand after the election, the supply will be plentiful.

The prospects of the crop of 1897 will probably be the factor which will decide whether low prices shall continue or whether higher values will prevail. We hear it said that a great many of the large growers of Central Kentucky have decided that they cannot and will not continue raising tobacco at present prices, but it remains to be seen how much they are in earnest about it. It is natural, however, that at 3 and 4 cents per pound the efforts on the part of growers will not be as strong as when the prospects were to realize 6 to 8 cents.

We cannot quote any improvement in the market since our last report. The only noticeable betterment was in good tobacco, for which there was a stronger demand and quicker bidding. All other grades seemed easier, if anything. Quite a large proportion of the offerings were funked, or at least not sweet, and this fact makes the buyers hesitate more in purchasing than they otherwise would.

Kentucky M. E. Conference.

At the third day's session of the Kenticky M. E. Conference at Vanceburg Rev. G. R. Frenger, Presiding Elder of the Covington district, and Rev. S. W. Schelton, Presiding Elder of the Green-river district, made reports.

AFTER SERVING YEARS IN PRISON John Daly Declares That He Is Not and Never Was a Dynamiter.

DUBLIN, Sept. 14.-John Daly, who was recently released from Portland prison after serving several years on conviction of complicity in a dynamite plot, together with his brother, arrived at Queenstown, near here, on Saturday evening. He was met by John Redmond, Patrick O'Brien, Timothy Harrington and others.

In replying to an address, Daly declared that he was not a dynamiter and that he never believed in aynamite to terrorize the English government. The dream of his life, he said was to fight for Ireland like a soldier and a patriot.

There was also a demonstration here in honor of Daly by the Annesty association. They presented an address to policy. He said he thought that Irishmen were too noble, brave and generous to advocate such principles. He concluded by declaring that he would be identified with no party or faction.

RECENT GOLD DISCOVERY.

Much Excitement Along Grand Encamment Creek, in Wyoming.

RAWLINS, Wy., Sept. 14.—There is much excitement here over a recent gold discovery on Grand Encampment creek, about 45 miles southeast of this city. The discovery was made by A. At a depth of 12 feet they have, it is claimed, a pay streak 22 inches wide, assays from which give returns from \$200 to \$1,000 in gold.
